PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

Iman Army Barracks Lazo East is south-west of Iman and 3 kilometers (km) east of Lazo (Figure 1).

The installation covers approximately 275 acres and contains 3 administration buildings, 21 barracks, 13 storage buildings, 40 support buildings, 1 heat/powerplant, 1 tower, 8 center sections of buildings destroyed or removed, 1 arch-roofed building of unknown function, and 1 vehicle maintenance/storage building (Figures 2 and 3).

Training facilities consist of a possible rifle range and probable maneuver area with many zig-zag trenches, automatic weapons emplacements, and numerous revetted positions.

KEYHOLE missions covered this area

between [REDACTED]. The presence of aircraft in area J1 between [REDACTED] suggests that this installation was either a DOSAF school or a military mechanic school. However, Mission [REDACTED] reveals that the aircraft have been removed.

Winter coverage, [REDACTED] shows heavy trackage in the vicinity of areas D2 and D1, but winter coverage [REDACTED] shows little or no trackage in the entire installation. There has been no significant change, excluding the removal of the aircraft, since initial coverage [REDACTED]. The military function of this installation cannot be determined from present photography.

DESCRIPTION OF INSTALLATION

Railroad Service

A siding of a main rail line terminates approximately 0.5 km from the installation.

Road Service

Probably hard surface all-weather roads serve the installation.

Aircraft Landing Strip

A sod landing strip is approximately 3 km east of the installation.

Administrative and Troop Housing Areas

Area D1 contains 2 administration buildings, 15 barracks, 4 general storage buildings, 20 support buildings, and 1 heat/powerplant.

Area D2 contains 1 administration building, 6 barracks, 1 storage building, 8 support buildings, and 1 tower.

General Storage Area

Area E contains 8 storage buildings, 8 partial buildings, 2 support buildings, and 1 unidentified arch-roofed building.

Equipment Storage/Maintenance Area

Area J contains one 320- by 25-foot vehicle storage/maintenance building, 10 support buildings, and one 700- by 470-foot motor park. Three BULL, 9 BEAGLE, and 5 small swept-wing aircraft were observed in this area in [REDACTED].

All past coverage also shows unidentified aircraft at this location; however, [REDACTED] coverage shows no aircraft in the vicinity.

Small-Arms Firing Range

Area L is a 590- by approximately 50-foot small-arms firing range. It consists of 2 firing lines approximately 295 and 590 feet from the

target area, and 2 target areas, 1 parallel with the firing points, and 1 at an angle.

Artillery Emplacement (Batteries)

Area Q contains a revetted 4-position artillery emplacement.

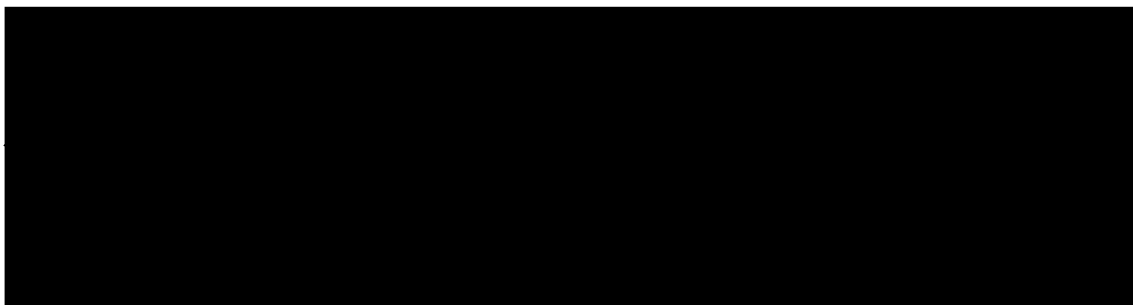

Infantry or Combined-Arms Field Training Area or Course

Numerous trenches and revetted positions north of the installation indicate extensive training in the vicinity.
